Footnote*:*

1. I've given you my words that my father your father gave me, to us. During these last 5 years and more, the words our father has given us, through me, form what we call The Central Database. The Central Database is at the center of the University of The New Covenant, for my words are to loose yours, and help you to become the pattern. The patternship of Christ now rises; be one, with one, that one really is; altogether, in surrender. To become an explorer in reality, begin the adventure that transcends the visible empirical. See the University of The New Covenant website for more information on entering life beyond the norm.
